

REFERENCE ELEVATION MARK (FT NGVD)	DESCRIPTION OF LOCATION
RM165	33.61 Chiseled square on the south side of the bridge at east end on Trimble Road at Guadalupe River. Established by George S. Nolte and Associates.
RM166	23.96 Chiseled square on top of catch basin located 56 feet east of the centerline of North First Street and 140 feet north of the centerline of Trimble Road. Established by George S. Nolte and Associates.
RM201	16.47 Chiseled square on northeast end of a concrete slab on county maintained signal control box. South side of Montague Expressway and east side of North First Street. Established by George S. Nolte and Associates.
RM202	26.08 Chiseled square on nose of center island of Montague Expressway, 66 feet south of centerline of Mello Drive. Established by George S. Nolte and Associates.
RM203	30.69 Chiseled square on the northwest corner of the signal control box slab, south side of Montague Expressway and east side of Trimble Road. Established by George S. Nolte and Associates.
RM204	36.70 Chiseled square on top of curb located on the south side of Montague Expressway and 2 feet west of end of existing curb, 6 feet west of power pole number 8/2. Established by George S. Nolte and Associates.
RM208	18.84 Railroad spike in power pole number 6/5, east side of North First Street, south of house number 2021 on west side of North First Street. Established by George S. Nolte and Associates.
RM214	38.66 Chiseled square on top of a concrete rail on the south side of Bayshore Freeway at the east end of cyclone fence and on the east side of Guadalupe River. Established by George S. Nolte and Associates.
RM216	38.27 The letter "P" on the word Pacific on top of the fire hydrant on the south side of Montague Expressway and 85 feet west of the centerline of Kruse Drive. Established by George S. Nolte and Associates.
RM218	40.86 Chiseled "x" on top of fire hydrant number 5625, 87 feet north of centerline of Dado Street and 33 feet west of centerline of Kruse Street. Established by George S. Nolte and Associates.
RM217	36.70 The letter "X" on the word Phoenix on top of catch basin located 30 feet west of centerline of Junction Avenue and 80 feet south of centerline of Charcot Avenue. Established by George S. Nolte and Associates.
RM219	37.72 Chiseled square on top of curb nose of center island, located 47 feet east of the centerline of Old Bayshore Highway, and 5 feet south of the centerline of Brokaw Road. Established by George S. Nolte and Associates.

### LEGEND

**SPECIAL FLOOD HAZARD AREAS INUNDATED BY 100-YEAR FLOOD**

- ZONE A** No base flood elevations determined.
- ZONE AE** Base flood elevations determined.
- ZONE AH** Flood depths of 1 to 3 feet (usually areas of ponding); base flood elevations determined.
- ZONE AO** Flood depths of 1 to 3 feet (usually sheet flow on sloping terrain); average depths determined; for areas of alluvial fan flooding, velocities also determined.
- ZONE A99** To be protected from 100-year flood by Federal flood protection system under construction / no base flood elevation determined.
- ZONE V** Coastal flood with velocity hazard (wave action); no base flood elevations determined.
- ZONE VE** Coastal flood with velocity hazard (wave action); base flood elevations determined.

**FLOODWAY AREAS IN ZONE AE**

**OTHER FLOOD AREAS**

- ZONE X** Areas of 500-year flood; areas of 100-year flood with average depths of less than 1 foot or with drainage areas less than 1 square mile; and areas protected by levees from 100-year flood.

**OTHER AREAS**

- ZONE X** Areas determined to be outside 500-year floodplain.
- ZONE D** Areas in which flood hazards are undetermined.

**UNDEVELOPED COASTAL BARRIERS**

- Identified 1993
- Identified 1990
- Otherwise Protected Areas

Coastal barrier areas are normally located within or adjacent to Special Flood Hazard Areas.

**Map Symbols:**

- Floodplain Boundary
- Floodway Boundary
- Zone D Boundary
- Boundary Dividing Special Flood Hazard Zones, and Boundary Dividing Areas of Different Coastal Base Flood Elevations Within Special Flood Hazard Zones.
- Base Flood Elevation Line; Elevation in Feet. See Map Index for Elevation Datum.
- Cross Section Label
- Base Flood Elevation in Feet Where Uniform Within Zone. See Map Index for Elevation Datum.
- Elevation Reference Mark
- River Mile

\* Referenced to the National Geodetic Vertical Datum of 1929

### NOTES

This map is for use in administering the National Flood Insurance Program. It does not necessarily identify all areas subject to flooding, particularly from local drainage sources of small size, or all planimetric features outside Special Flood Hazard Areas. The community map repository should be consulted for more detailed data on BFEs, and for any information on floodway delineations, prior to use of this map for property purchase or construction purposes.

Areas of Special Flood Hazard (100-year flood) include Zones A, AE, A1-A30, AH, AO, A99, V, VE, and V1-V30.

Certain areas not in Special Flood Hazard Areas may be protected by flood control structures.

Boundaries of the floodways were computed at cross sections and interpolated between cross sections. The floodways were based on hydraulic considerations with regard to requirements of the Federal Emergency Management Agency.

Floodway widths in some areas may be too narrow to show to scale. Refer to Floodway Data table where floodway width is shown at 1/20 inch.

Corporate limits shown are current as of the date of this map. The user should contact appropriate community officials to determine if corporate limits have changed subsequent to the issuance of this map.

This map may incorporate approximate boundaries of Coastal Boundaries Resource System Units and / or Otherwise Protected Areas established under the Coastal Barrier Improvement Act of 1990 (P.L. 101-591).

For adjoining map panels and base map source see separately printed Map Index.
